

Customer Class Diagram

Limitations of PTCeBanking

Security Issues:

Various sites are not properly secured to ensure the safety of the customer's funds in the cyber world. Although security problems are being tackled, they still put the customer at more risk than face-to-face banking.

Lack of Awareness:

Many people are hesitant to use e-banking because they believe that it may be more expensive than traditional banking. Furthermore, there is a slight learning curve to operating a website so they may be reluctant to become a digital customer.

Time and Labor:

The implementation of online banking can lead to tedious manual work along with an enormous of time consumption fro recording all transactions.

Errors:

Mistakes and errors can occur more easily during the manipulation of several records which can lead to crashes and/or loss of records.

System Requirements

Software Requirements	Hardware Requirements
Operating system: Windows	Processor: any
User Interface: HTML	Hard disk: TBD
Programming Language: Python	RAM: 256 MB or more
Database: MongoDB	Internet Connection (Speed: TBD)
